

SHOP SUPPLIES AND FINISHING WÜRTH WOOD GROUP

You Decide, We Deliver

Small-town ideals meets international distinction.

Würth Wood Group is more than the materials we provide. We're experts in our field, and a true partner to our customers. We will work hard alongside you and your employees to drive value into your business, while building and fostering long-term relationships along the way.

Würth Wood Group has partnered with several key vendors to compile a complete offering of professional coatings systems, equipment, finish room and shop supplies that are easily accessible to you, the customer. Our mission is to grow your business by bringing expedited solutions directly to your application areas, throughout your shop and finishing rooms.

The new Shop Supplies and Finishing Solutions catalog will make ordering your everyday supplies easier than ever, keeping your productivity high in the shop and in the field, while minimizing your time spent searching for day to day essentials.

Be sure to look us up on our new website for even easier access to a wide range of finishing products/shop supplies, as well as many other products.

FINISH ROOM SAFETY

First Aid and Eyewash Stations

Wurth Wood Group is dedicated to providing its customers with safety and personal protective products that exceed their expectations for quality and safety in the workspace. We have assembled a range of commonly used shop safety products that are readily available to you the customer. A safe workplace is paramount in our industry and these products will help keep your employees safe on the job while increasing productivity and reducing downtime caused by often avoidable shop incidents.

104 PIECE METAL FOUR SHELF FIRST AID KIT

- Keep your workers safe, productive, and on-the-job, with a well-stocked first aid cabinet
- Heavy-duty, steel cabinet features long-lasting, powder-coat finish for durability
- Versatile cabinet is wall-mountable and has carry handle for easy transport
- Refillable for added convenience and savings
- Ideal for medium-to-large industrial applications
- Door pouches allow convenient storage of smaller items
- Measures 21 1/8"H x 15 1/8"W x 5 1/8"D
- Complies with ANSI standards

Safety Glasses

CLEAR SAFETY GLASSES WITH ANTI-FOG

- Design conforms to face for added protection and comfort
- The coating provides 3x the strength and last 3x as long as traditional safety lenses
- Manufactured in an ISO 9002 Registered facility
- Complies with ANSI standards
- Sliding adjustable temples
- Box Quantity: 12

Item Number	Price
23854	\$3.99

CLEAR SAFETY GLASSES

- Coating is scratch-resistant which allows for longer use
- Lenses made of polycarbonate resist impact and block harmful UV rays
- Manufactured in an ISO 9002 Registered facility
- Complies with ANSI standards
- Box Quantity: 12

Item Number	Price
30802	\$1.89

VISITOR SPORT CLEAR LENS BULK PACK SAFETY GLASSES

- Ideal for employees and visitors - lightweight
- ANSI Compliance
- Manufactured in an ISO 9002 Registered facility
- Complies with ANSI standards
- Box Quantity: 24

Item Number	Price
25997	\$48.49

PREMIUM SIDESHIELDS

- PVC Slip On Safety Shields
- Tool-less application
- Slides on in seconds
- Ideal for keeping sawdust out of your eyes
- Complies with ANSI standards when worn in conjunction with ANSI approved eye wear
- Box Quantity: 60

Item Number	Price
23792	\$3.69

SAFETY GLASSES NECK CORD RETAINER

- Keep glasses from hitting the ground while working with your hands
- Quickly slips onto most glasses
- Box Quantity: 12

Item Number	Price
22232RD	\$0.89

Ear Protection

HI-VIS EAR MUFF NRR 25DB

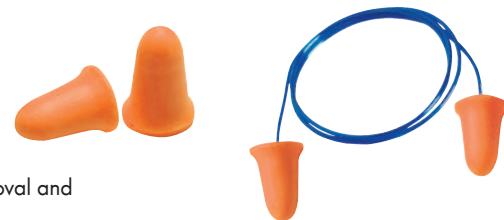

- Bright color ear cups provide safety and visibility
- Padded headband provides comfort and folds for easy storing
- Provides great protection in noisy environments

Item Number	Price
14993	\$11.99

EAR PLUGS

- Slow, soft recovery foam seals ear canal for hearing protection
- Shape offers easy removal and fitting

- Excellent grip and abrasion resistance provided by rubber latex palm coating
- 100% polyester shell allows for a comfortable and breathable all-day wear
- Ideal for general duty applications including assembly, construction, maintenance and packaging

Shop Lighting

LED PORTABLE RECHARGEABLE WORK LIGHT

- 24 SMD high intensity LEDs and state of the art surface mount diode LEDs deliver 779 lumens
- Rechargeable, 12V portable design features die-cast housing and steel H-base
- Charges in 3 hours
- 1 hour 40 minute runtime on full charge
- Features weatherproof on/off switch, 7.4V 2200mAh Lithium-ion rechargeable battery, 3' cord with 12V 500mA transformer charger

Item Number	Price
157710	\$70.30

LED PORTABLE RECHARGEABLE WORK/FLASHLIGHT

- Cordless, rechargeable, 2-in-1 light delivers a 20-LED work light and 7-LED flashlight
- Operates 8 hours as work light and 12 hours as flashlight between recharges
- Automatically turns on when the power goes out, providing emergency lighting when plugged into the charger
- Convenient magnetic holder allows hands-free use
- Hanging hook rotates 360° and folds out of the way when not in use
- Includes 12-volt car charger and 110-volt wall charger

Item Number	Price
30774	\$38.99

Extension Cords & Tape Measures

EXTENSION CORDS

- Features a power indicator light plug end to let you know you have power
- Vinyl jacket resists moisture, abrasion and prolonged exposure to sunlight
- Reinforced blades help prevent accidental bending or breaking
- Molded plugs and heavy-duty strain relief protects electrical connections resulting in longer cord life
- Outer jacket won't mark floors or walls
- Rated at 125-volt/15 AMP
- UL listed

Item Number	Description	Price
29346	12/3 Gauge 25' Outdoor Extension Cord	\$27.79
29347	12/3 Gauge 50' Outdoor Extension Cord	\$33.79
29349	12/3 Gauge 3-Way Power Block	\$7.39

TAPE MEASURES

- Durable rubber shell over tough, high impact plastic case ensures a comfortable grip and extra durability
- Direct read fraction scale makes measures accurate and easy
- 1" wide blade, and 25' length.
- Features 7" stand out, heavy-duty hook, and handy attached lanyard
- Fractional measure

Item Number	Size	Price
22230	12'	\$2.49
22248	16'	\$3.49
22110	25'	\$4.99

FLAMMABLE STORAGE CABINETS*

- Cabinets are required by OSHA and UFC in commercial and industrial facilities where flammable liquids are used and stored
- Units conform to NFPA code 30 and OSHA 29 CFR 1910.106 and are FM approved
- Sturdy all welded double wall steel construction

Item Number	Size	Price
0957900001961	12 Gallon	\$391.75
0957900003961	30 Gallon	\$563.34

FIRE EXTINGUISHER*

- Amerex® extinguisher uses dry chemicals (ammonium phosphate) to help put out Class A, B, and C fires
- Steel cylinder features polyester epoxy finish for extreme durability
- Forged aluminum valve ensures long service life
- Polyester paint meets UL salt spray standards
- UL rating: 4A:80B:C
- Dimensions: 20"H x 7 3/4"W x 5"D
- Manufactured in an ISO 9002 Registered facility
- 6 year limited warranty

Item Number	Description	Price
3426	Amerex® 10 lb. ABC Multi-Purpose Dry Chemical Fire Extinguisher with Wall Bracket	\$98.11

FIRE GONE SUPPRESSANT

- Easy to use trigger spray design
- Environmentally safe, non-toxic foam assures fast clean up
- Ideal for office, kitchen, home, auto, and garage use
- Mounting Bracket
- Fire suppressant mounting bracket
- Holds unit firmly in place
- Corrosion resistant

Item Number	Description	Price
32509	Fire Gone Suppressant	\$9.99
32510	Mounting Bracket for Fire Gone Suppressant	\$1.99

OILY RAG DISPOSAL CONTAINERS*

- Heavy gauge steel construction, with powder coat paint finish ensures durability
- Lid opens to 60° to protect contents from fire sources and automatically closes when foot lever is released
- Ventilated base safely disperses heat
- Outer diameter 13 15/16" height 18 1/4"
- 10 year limited manufacturer warranty
- UL listed, FM approved

Item Number	Size	Price
1193RD	6 Gallon	\$56.90
1195RD	10 Gallon	\$67.90
1197RD	14 Gallon	\$87.90
1199RD	21 Gallon	\$118.90

FIRE EXTINGUISHER SIGN

- 6" x 5" Panels
- Constructed of 0.10" thick high impact plastic
- Over-laminate protects images on panels, ensuring long use
- Two panel sign projects out from wall at a 45° angle, allowing viewing from front and sides
- Double-flanged with predrilled mounting holes and screws, or use the included self-adhesive foam tape

Item Number	Price
15019	\$13.18

- Special ingredient for extreme soilings such as paints, inks, adhesives, lacquers and sealants
- No greasy residue and deep, penetrating moisturizer
- Antioxidant that helps protect skin from UV-related damage

Item Number	Size	Price
0893901001	15 oz	\$6.99

WURTH & COLMET PARTNERSHIP

ABOUT COLMET

Col-Met engineered finishing solutions is the market leader in spray booths, ovens, washers, AMU's and other finishing components, delivering value through our quality, service, people and commitment to innovation.

- State-of-the-art 150,000 sq. ft. manufacturing facility location in Rockwell, TX
- Committed to bringing the highest quality products and innovative solutions
- Highly experienced Engineered Products Team that can design and engineer complex finishing systems
- Educational training services to expand your knowledge to Col-Met products and the finishing industry

Col-Met designs and manufactures an extensive line of paint booths to meet the most current demands of paint technology in the woodworking market. Colmet's paint booths are fully customizable and can be designed and built in a variety of sizes and configurations to meet your specific needs.

OPEN FRONT BOOTHS

Open Front Booths offer an economical solution for your batch or conveyORIZED production application. Col-Met's open front booths are designed with heavy duty construction utilizing simple and effective design elements. Air flow is drawn in through the open front, across the work area and exhausted through a filter bank in the back of the booth. The dry arrester filters trap the airborne overspray particles before the filtered air is discharged through the exhaust system and into the atmosphere. Design elements and configurations are flexible and can be customized to meet the demands or unique applications of our customers.

OPEN FRONT BENCH PAINT BOOTHS

Designed for both batch and conveyORIZED production systems, Col-Met's Open Front Bench Booth offers a safe and clean environment for any type of finishing operation. A structural variation of our Open Front Booth design, Col-Met's Open Front Bench Booths are also suitable for batch and automated finishing systems. The bench within the paint booth allows for easy paint application for small parts and medium sized parts. Airflow is drawn in through the open front, across the painter and parts being coated, and then exhausted through a filter bank in the back of the booth. Col-Met's Open Front and Open Front Bench Booths are engineered for versatility, high efficiency and added convenience.

ENCLOSED INDUSTRIAL PAINT BOOTHS

For a superior quality finish, our Enclosed Industrial Booths are highly efficient at managing air flow and productivity. Air flows in through the filtered double entry doors in the front of the booth, passes through the booth's working area, and into the filtered exhaust chamber located in the rear of the booth. This filtered exhaust air is drawn through the exhaust plenum and discharged upward into the atmosphere through the exhaust stack. Col-Met has designed four standard height configurations to meet the varying needs of our customer applications.

EZ SIDE DOWNDRAFT

Designed for shops that lack the ability to install a pit, the EZ Side Downdraft booth is a perfect solution. The EZ Side Downdraft Booth efficiently draws filtered ceiling air down through the booth, supplying the area with clean, filtered air. Instead of drawing the air into a pit, filtered air runs vertically down the walls of the booth on both sides. Overspray is contained and prep time is reduced while providing a completely safe environment that is safe of harmful toxins. EZ Side Downdraft spray booths are offered in a number of sizes and configurations such as pressurized, non-pressurized, solid back and drive through designs.

From **design, delivery and install**, we offer it all!

Würth Wood Group spray booth install at Vine and Branch Woodworks

Spray Booth Accessories

3M™ DIRT TRAP PROTECTION SYSTEM

- A low toxicity finish remover that handles the toughest finishes
- Dissolves finishes within seconds or minutes
- Low Evaporation
- Excellent rinsability
- Very low toxicity/non-carcinogenic
- No MC, NMP or lye

WURTH & C.A.TECH PARTNERSHIP

VALUED CUSTOMER RELATIONSHIP

Wurth and CA Technologies have been partners for more than 15 years. Both companies strive to bring the latest products and technology to the forefront. The goal for both companies is to support our customers before, during, and after the sale. Since you have committed your trust to us in the form of purchases, we will commit ourselves to making sure you are satisfied with those purchases. Our combined partnership is on display in this catalog and we have developed a new Partner Perk program to bring value to you.

What is the **Partner Perk** program? For our valued customer's, we are now offering perk pricing on spray equipment. Our mission is to become trusted advisors in all aspects of the finish process – from coatings, to equipment, to shop supplies and accessories.

For your valued loyalty we would like to give back in the form of some great discounts. You will find a special “**Perk Price**” listed next to certain items in this catalog. We have partnered with CA Technologies to develop a buying program that allows us to discount the higher priced items like guns and pumps, and then pass that cost savings along to you.

The perk pricing is available for all customers that are buying ML Campbell coatings and shop accessories like sandpaper and abrasives. We place a high value on this relationship and are very happy to be partnered with you, our customer.

*** Ask your Sales Representative about more information about Perk Pricing and to see if your company qualifies.**

We hope that the knowledge and expertise we bring to your finish department brings added value and profitability to your business. Thank you for your support and let's schedule a demonstration so we can show you how to put this money making technology to work.

Wurth / ML Campbell / CAT have partnered together to create a spray equipment set up guide. In it you will find the must-needed set up recommendations for all of the ML Campbell products. The equipment listed ranges from hand guns, to pressure pots, to Air Assist Airless pumps. With this easy to follow guide, you can immediately set up your equipment to achieve the best possible results from your ML Campbell products. A Wurth finish specialist is also trained to help assist you with your equipment set up.

The ML Campbell square foot coverage guide is a marketing brochure designed to show you the cost savings benefits of new equipment technology such as HVLP (High Volume Low Pressure) and Air Assist Airless. Turning spray equipment into real dollar savings is our goal so please ask your finish specialist to explain the many key features and benefits of an improved and updated spray equipment system.

CAT-X (DELUXE PPS™ KITS)

Pressure Reduced / HVLP

CAT-X DELUXE SERIES

- The CAT-X provides extreme atomization.
- HVLP transfer efficiency with the finish quality and speed of a conventional spray gun.
- Incorporates 4 needles/nozzles and 2 air caps.
- Includes a durable carrying case and air regulator for precision results.
- Requires 13.5 CFM with 24-1411.
- Requires 11 CFM with 24-1352.

3M™ PPS™ PAINT PREPARATION SYSTEM VERSION TWO

- New quarter-turn lid locking system locks lid to cup and eliminates paint build up and cross threading
- Redesigned adapters provide four points of connection from spray gun to lid, improving stability and confidence especially in large applications
- Domed lid geometry and a wider fluid spout allows up to 3 fl. oz. (90 ml) of material to be held below the filter reducing inconsistent spray due to air-entrapment and sputter

PRECISION-FIBER CLOTH (PFC)

Precision-Fiber Cloth (PFC) Paint and Cleaning Rags are made from absorbent natural fibers hydro-entangled with strong polymer filaments. Better than rags made from new textile seconds and old clothes, PFC rags are manufactured to exact size and shape. These rags are excellent for staining in hard to reach wood profiles.

GREEN FROGTAPE™

Get crisp, clean lines on your next painting project with FrogTape® Multi-Surface Painter's Tape. How does it work? It's made with exclusive PaintBlock® Technology, a super-absorbent polymer that reacts with the water in latex paint and instantly gels to form a micro-barrier that seals the edges of the tape to prevent paint bleed. The result is a crisp, professional paint line. Designed to work on a variety of surfaces, this premium grade masking tape delivers a performance you can be proud of.

AQUACOAT CLEAR COAT AND WHITE GRAIN FILLER

PGF 650 Professional High-Performance Pore and Grain Filler is a water borne, easy to sand, clear gel wood grain filler to fill pores and grains in woods. This product is easy to apply, levels the surface, and dries crystal clear and transparent while providing a silky, glass smooth finish. This pore sealer will help minimize the further penetration of primers and topcoats. It is excellent at showcasing the natural color and character of the wood but can also be tinted easily if desired.

Item Number	Size	Price
AGF30065002	PGF650 HP Grain Filler Clear Quart	\$37.59

AQUACOAT WHITE COAT AND WHITE GRAIN FILLER

Aqua Coat White Cabinet Wood Grain Filler is a waterborne, easy to sand, white gel wood grain filler for hard to fill pores and grains in woods. This product is easy to apply and levels the surface while providing a smooth finish. It will save you time by minimizing the number of coats of primer and paint to complete project. This product has been used with wonderful success when refinishing oak kitchen cabinets. It can also be used on other pieces of furniture you plan to paint. Can be used both for commercial and Residential use.

Item Number	Size	Price
AWGF30070002	White Cabinet Grain Filler Quart	\$36.09

ALSO AVAILABLE IN PINT, GALLON AND 5 GALLON SIZES!

CLEAR WATER BORNE AEROSOLS

Perfect Blend® Waterborne Lacquer

A premium blended water-based acrylic lacquer featuring fast dry and very low odor that is HAPS free. It displays excellent adhesion over waxed and polished surfaces and areas contaminated with silicone. Perfect Blend® Waterborne features a soft spray, low film build, and fine atomization resulting in virtually no overspray, little bounce, good flow, and a strong ability to blend in with the surrounding surface. Ideal for touch-up use where odor may be an issue, especially restaurants, offices, homes and hotels. Net Wt. 13.5 oz.

* Not included in the 12 pack

Dye based transparency with highest rating of light-fastness available for dyes.

- Excellent flow out
- No overspray
- Mar and alcohol resistant

Solve flow-out problems associated with aerosol lacquer touch-up! Ultra® Classic Toners utilize a non-fading, non-bleeding dye to provide excellent clarity. Wood shades can be varied without imparting the "muddy" effect sometimes associated with pigment type toners. Custom color matching available with a minimum order of 3 dozen per color. Net Wt. 13 oz.

TONER AEROSOLS

Finely ground, non-fading pigments for color repairs that last. Available in a wide variety of wood finishing shades. Used throughout the industry for quick efficient professional touch-up. Adapts to various methods so as to blend in spot repairs. Adjustment of sheen is achieved with a topcoat of clear lacquers available in gloss, satin, flat and dead flat. Custom color matching available with a minimum order of 3 dozen per color. Net Wt. 13 oz.

M1018359	Cherry Brown	\$7.19

SAND THROUGH STICKS

Used to add color to light edges or white edges on wood surfaces due to sanding through a finish during the finishing process. This stick will not only add color, but can also fill in small imperfections located on the edges. Easy to use. Rub the stick along the light edge to add color, blend the edge with a rag and then finish with your normal process.

- Quick and easy to use
- Hard wax square stick
- Fill "small" defects in the edge
- Designed to be used off line or on line (hanging line)
- Can be used during or after your wood finishing process
- Must be top coated

BRUSH TIP GRAINING MARKERS

The NEW Brush Tip Graining Marker features a micro brush tip applicator. This revolutionary marker and tip allows you to apply color exactly where it is needed without any messy powders, fluids or odors. This is the perfect color tool for service technicians, shop technicians or factory line technicians. This is simply the easiest marker that you will ever use! Uses for the Brush Tip Graining Marker:

- Use to add grain lines or alter the color of a Fil-Stik Putty Stick, Quick Fill Burn-In Stick, PlaneStick Burn-In Stick or E-Z Flow Burn-In Stick
- Add color to small sand thru areas on the face or edge of wooden parts
- Add or alter color in any small defect
- Features a micro brush tip applicator
- 24 wood tone colors, four 6-pack assortments
- Clear crisp colors that hold a thin line
- Low to no odor
- Easy to use, teach and learn
- Quick, easy application, no messy powders, extra brushes or liquids

PRO MARK TOUCH UP MARKERS

Always keep your Pro-Mark® Touch-Up Markers organized for easy color selection with this heavy-duty, nylon carrying pouch that holds up to 24 markers. Rolls up and ties when not in use for easy handling.

The Pro-Mark® capillary marker features excellent flow. Whether you need to touch-up 1 inch or 20 feet, the Pro-Mark® Marker does it the first time and every-time. The colors are the most fade resistant, the most resistant to color shift from topcoating and have the best bleed resistance. The nib offers superior flow along with the durability needed to do all normal repair work. The nib remains usable for the life of the marker. Marks equally well with the edge, the bottom or the tip. Good adhesion to most surfaces and resistance to polishes are built into the Pro-Mark® Marker. Custom color matching available.

ARTISAN GLAZING MARKERS

This touch-up marker was designed to be the same strength as a light glaze, dry slowly, which enables you to work the color once it is applied to the part and build color over itself. You can add, alter or create a glaze line over a finish using this marker. This marker is designed to be used in the field, shop or factory settings.

- Quick and easy to use
- Can be used during or after your finishing process
- Can be used to create or touch-up existing glaze lines

PATCHAL COLORED PUTTYS

Quickly fill small defect in wood furnishings, including nail holes, miter joints and cabinet seams, with just one wipe. Also great for picture frames, trim and molding. Filler is tinted to perfectly match each shade of wood without requiring any painting or staining after curing.

- Fast and easy application, simple clean up
- Fade resistant, non-bleeding permanent colors
- Filler designed for use on small cosmetic repairs in wood surfaces
- Top coat lacquer can be applied following application for increased durability
- Net wt 4.4 oz.

WE LOVE OUR EMPLOYEES

FROM OUR YEARLY WÜRTH
WORKOUT WEEK TO MONTHLY
CELEBRATIONS, WE ENJOY
HAVING A GOOD TIME!

M L CAMPBELL

Wurth + M.L. Campbell + Corob

For 25 years, Wurth Wood Group and M.L. Campbell have partnered to deliver our customers the broadest range of wood coatings and supporting services available to our industry.

We are joining together once again to bring on a new partner that will help **Wurth Wood Group** and **M.L. Campbell** raise the bar and establish a new standard in the industry as it pertains to color development and color reproduction for the custom woodworker.

Introducing, **Corob.**

Focus on product development and innovation have characterized the past 25 years for Wurth and M.L. Campbell, and Wurth is excited to partner with COROB to take another innovative step with you, our customer, in re-defining color development in the wood-working industry.

The M.L. Campbell Difference

TRAINING PROGRAMS

At its state-of-the-art training facility in Fort Erie, Ontario, M.L. Campbell offers rigorous training programs that prepare our lacquer specialists to analyze and recommend the right system for your shop's needs. We can also offer comprehensive hands-on training seminars and technical support at your location – ask your lacquer specialist for further details.

SHOP CONSULTATIONS

We take service a step further by working in-house with you to ensure M.L. Campbell coatings help you achieve your specific finishing needs. Our factory-trained lacquer specialists will visit your shop to personally demonstrate and spray M.L. Campbell wood finishes, while sharing recommendations on proper wood finishing systems, spray equipment, and any other supplies that you may need.

COLOR MATCHING

Our Color Studio™ offers custom color stain and pigmented finishes with quick match turnaround time. Utilizing M.L. Campbell's unique color tint system, extensively trained specialists use color match computers to deliver precise color matching that can be easily duplicated with accuracy.

QUICK DELIVERY

We stock an extensive product assortment and carry enough inventory to service large shops, so you can always count on M.L. Campbell products to be delivered quickly from Wurth locations near you.

Solvent-borne Sealers

M.L. Campbell's solvent borne system is designed to provide you with every product you need to perform high-quality, professional wood finishing, including formaldehyde free and low VOC formulations. This unique system is highlighted by a full selection of the industry's best clear and pigmented lacquers. M.L. Campbell's Topcoat Finishes ensure that you achieve the highest levels of ease, flexibility and durability.

SEALERS

EnviroVar™ Sealer

This sealer is a formaldehyde-free amino-alkyd post-catalyzed conversion varnish that is both low odor and HAPs free, helping to create a safer work environment. It applies and sands easily and cures at normal ambient temperature and was specifically formulated to eliminate formaldehyde off gassing concerns from acid cure coatings.

Level Sealer® **CAN BE SPRAYED AT 12 WET MILS**

This post-catalyzed amino alkyd finishing system offers the ultimate in durability in a high build formula that requires fewer coats. Level Sealer® is a high solids, water white formula specifically designed for interior wood surfaces that are exposed to moisture, heat and household chemicals.

EnviroSand™ Sealer

This sealer is a formaldehyde free amino-alkyd pre-catalyzed formula that is both low odor and HAPs free, helping to create a safer work environment. It applies and sands easily and provides a smooth surface and was specifically formulated to eliminate formaldehyde off gassing concerns from acid cure coatings.

Magnasand® Sealer * VOC

This water white, HAPs free, pre-catalyzed lacquer sealer offers thermo set properties and is 24% solids (by weight). It is an easy sanding, fast dry sealer that provides excellent holdout for clear topcoats.

Quick Dry Vinyl Sealer

This HAPs free fast dry vinyl modified nitrocellulose lacquer sealer has excellent sanding properties and was formulated to offer an improvement over conventional lacquer sealers where excellent adhesion, stain blocking and superior moisture resistance are required.

Water White Vinyl Sealer

This fast-dry, medium solids, water white vinyl sealer is non-yellowing and is formulated to offer outstanding adhesion, sanding properties, stain blocking and superior moisture resistance.

Polarion™ Clear Sealer - NEW

This two-component acrylic polyurethane is GREENGUARD Certified and offers exceptional adhesion, sandability, and stack and pack capabilities that lead to increased production times. It is designed to seal and create a porous free surface for top coating.

Polarion™ Isolante Sealer - NEW

This two-component polyurethane offers exceptional adhesion and acts as a tie or barrier coat. This clear sealer formula is specifically designed for interior wood surfaces that are rich in natural wood oils or otherwise marginally contaminated.

Polarion® X Exterior Sealer - NEW

This two-component acrylic polyurethane is GREENGUARD Certified and offers exceptional adhesion and chemical resistance, true non-yellowing performance, quick dry time and excellent UV resistance.

Krystal® Sealer

This post-catalyzed sealer offers a water white, non-yellowing formula. With easy application, fast drying and easy sanding characteristics, this may be your best choice when you need a clear sealer.

Krystal® High Build Sealer - NEW

This non-yellowing, HAPs compliant, high solids acid catalyzed sealer has exceptional sag resistance and will produce an easy sanding finish with very good durability and high resistance to water, solvents and chemicals.

Coda™ Interior Hybrid Polyurethane Clear Sealer - NEW

This two-component acrylic/alkyd blend is GREENGUARD certified and offers exceptional adhesion and quick dry times. It was formulated for interior wood surfaces that are exposed to moisture, heat and household chemicals.

CLEAR TOPCOATS

POLARION™ Interior Clear

This extremely durable, two component acrylic polyurethane is GREENGUARD Certified and offer exceptional high build and clarity, excellent chemical and mar resistance, true non-yellowing performance and a full range of sheens. It is a high solids, water white formula specifically designed for interior wood surfaces that are exposed to moisture, heat and household chemicals.

* VOC = Also available in VOC compliant formulas.

POLARION® X Exterior Clear

This high-performance wood finish was formulated for any exterior wood surface that needs to resist the toughest weather mother nature serves up. POLARION X is a durable, exterior, polyurethane system of sealers and clear topcoats with a full range of sheens. It's easy to use and manage utilizing just one catalyst and mix ratio.

CODA Interior Clear Hybrid Polyurethane

This two-component acrylic/alkyd blend that is GREENGUARD certified and offers excellent chemical and mar resistance. This unique hybrid technology provides remarkable long term color stability and build as well as accelerated dry times.

EnviroVar™

This HAPs-free, formaldehyde-free self-sealing post-catalyzed conversion varnish applies and sands easily, quick curing to produce outstanding durability, depth and clarity. It was formulated to eliminate formaldehyde off-gassing concerns from acid cure coatings on commercial and residential projects.

Krystal® * VOC

This post-catalyzed high solids, non-yellowing, water white conversion varnish was designed for wood surfaces exposed to extreme moisture or household chemicals, offering the ultimate in durability. This self-sealing system has outstanding application and sanding properties.

KlearVar®

This high solids, water white, non-yellowing, post-catalyzed amino alkyd conversion varnish leaves a unique smooth-to-the-touch finish. It is a low odor, self-sealing, easy-to-apply formulation that has exceptional resistance to water, solvents and household chemicals.

EnviroMax™

This HAPs-free, formaldehyde-free self-sealing pre-catalyzed lacquer applies and sands easily, provides UV protection, cures at normal ambient temperature and dries to a smooth touch finish. It offers the convenience and user-friendly features of pre-catalyzed lacquer while providing the high durability and performance of a post-cat.

MagnaKlear® TRUE NON-YELLOWING PRE CAT

Amino alkyd pre-catalyzed water white conversion varnish

This HAPs-free water white pre-catalyzed amino alkyd conversion varnish was designed for ease of use for interior wood surfaces exposed to moisture, heat and household chemicals. This product offers outstanding UV resistance and does not yellow under ultraviolet exposure.

MagnaMax® * VOC

High-performance pre-catalyzed lacquer

This high performance pre-catalyzed lacquer closes the gap between pre-cat and post-cat lacquers. This high solids, water white formula offers the convenience and user-friendly features of pre-catalyzed lacquer, while providing the high durability and performance of a post-cat.

High Performance Conversion Varnish

This post-catalyzed, water white, HAPs-free formula with ultra low formaldehyde is also self-sealing, dries fast and offers excellent durability. It has a unique close-to-the-wood furniture appearance and excellent UV-resistance to prevent yellowing.

High Performance Pre-Catalyzed Lacquer

This high-quality, water white, self-sealing lacquer offers fast dry properties and has exceptional resistance to water, solvents and household chemicals. It is HAPs-free and has an ultra low formaldehyde formulation.

PRIMERS/UNDERCOATERS

POLARION™ Pigmented Primer - NEW

This two-component acrylic polyurethane is GREENGUARD Certified and offers exceptional adhesion, sandability, and stack and pack capabilities that lead to increased production times. These primers are designed to fill small voids and create an even surface for top coating.

Magnaclaw™ * VOC

This HAPs free, VOC compliant, fast dry, easy sanding pre-catalyzed primer/ undercoater was specially formulated for use as the first coat under M.L. Campbell® pre-catalyzed pigmented lacquers. It exhibits good adhesion on wood, particle board and hard boards and has good holdout over porous surfaces such as soft wood, MDF and untempered hard board.

Clawlock® * VOC

This high-performance, two-component, post-catalyzed amino alkyd primer/undercoater provides an excellent base coat for a high-performance pigmented finishing system. Ideal for filling the open pores on MDF board, this high solids formula dries fast with no re-coat window and has excellent sanding properties.

Level Primer™

This post-catalyzed amino alkyd primer offers the ultimate durability in a high build formula that requires fewer coats. The white Level Primer™ formula was specifically designed for interior MDF and wood surfaces that are exposed to moisture, heat and household chemicals.

Magnalac® Primer/Undercoater

This fast dry, easy sanding performance nitrocellulose lacquer primer/undercoater was formulated for use as the first coat under Magnalac® Pre-Catalyzed Pigmented Lacquer but will also work as an excellent primer/undercoater for other products. It exhibits very good adhesion on wood, particle board and hard boards and has good holdout over porous surfaces such as soft wood and untempered hard board.

EnviroClaw™ Formaldehyde Free Pre-Cat

This fast-dry, easy-sanding pre-catalyzed primer is HAPs free, Formaldehyde Free, and 550 VOC compliant and helps create a safer work environment and improving indoor air quality once a project is installed. It is GREENGUARD certified and was specially formulated for use as the first coat under EnviroMax™ Formaldehyde Free Pre-catalyzed White/Opaque Lacquer.

*** VOC = Also available in VOC compliant formulas.**

Envirolock™ Formaldehyde Free White Primer

This acid cure formaldehyde free amino alkyd post cat primer is both low odor and HAPs free; creating a safer work environment and improving indoor air quality once a project is installed. It is a GREENGUARD certified, fast dry, easy sanding post-catalyzed primer specially formulated for use as the first coat under EnviroVar Formaldehyde Free Post Catalyzed White/Opaque.

Production Lacquer Primer White - NEW

This fast drying lacquer primer for wood sands well when dry to provide a smooth surface to accept waterborne paint, oil based paint or lacquer topcoats. It has good adhesion and holdout on wood, particle board MDF and untempered hardboard.

NC Black Primer/Undercoater

This fast dry, easy sanding, high performance Nitrocellulose lacquer primer/undercoater was formulated for use as the first coat under nitrocellulose products. Black NC Primer exhibits very good adhesion on wood, particleboard and hard board. Also has good holdout over porous surfaces such as soft wood and untempered hard board.

Quick Dry White Vinyl Primer

This fast drying, easy sanding primer that was formulated for use as a first coat under all M.L. Campbell® pigmented solvent-based pre-catalyzed and post-catalyzed lacquers, conversion varnishes, nitrocellulose lacquers and CAB modified lacquers.

White Vinyl Primer

This non-yellowing, easy sanding primer was formulated for use as a first coat under all M.L. Campbell® pigmented nitrocellulose, pre-catalyzed and post-catalyzed products. It exhibits very good adhesion on wood, MDF, particleboard and other hard boards.

Coda™ Interior Hybrid Polyurethane White Primer - NEW

This two-component acrylic/alkyd blend is GREENGUARD certified and offers exceptional adhesion, coverage and quick dry times. It was designed for interior wood surfaces that are exposed to moisture, heat and household chemicals.

PIGMENTED POST-CAT TOPCOATS

POLARION Interior Pigmented White/Opaque base - NEW

This extremely durable, two component acrylic polyurethane is GREENGUARD Certified and offers excellent color hold out, chemical and mar resistance, true non-yellowing performance, and a full range of sheens. The high solids, water white formula was designed for interior wood surfaces that are exposed to moisture, heat and household chemicals and available in over 1,000 colors.

CODA Interior White Hybrid Polyurethane - NEW

This two-component acrylic/alkyd blend is GREENGUARD certified and offers excellent chemical and mar resistance. This unique hybrid technology provides remarkable coverage and build, as well as accelerated dry times.

EnviroVar™ Formaldehyde Free Conversion Varnish White/Opaque

This acid cure formaldehyde free amino alkyd post-catalyzed varnish is both low odor and HAPs free; creating a safer work environment and improving indoor air quality once a project is installed. It is GREENGUARD certified and was specifically formulated to eliminate formaldehyde off gassing concerns from acid cure coatings on commercial and residential projects.

Stealth® * VOC

This high solids, non-yellowing, low odor, amino alkyd post-catalyzed conversion varnish has exceptional resistance to water, solvents and household chemicals. It is easy to apply and can be tinted in 1,000+ colors.

Turino™ - NEW

This high solids post-catalyzed pigmented conversion varnish provides durable performance and a premium appearance. This low odor finish is an easy to apply formulation that has a fast "dry to sand" time and provides excellent hiding - giving you the convenience of applying fewer coats in less time.

Resistant™

This premium pigmented, post-catalyzed varnish produces a highly durable finish with exceptional resistance to water and chemicals, as well as wear by usage. This fast dry, user-friendly formula can be tinted to 1,000+ colors.

PIGMENTED PRE-CAT TOPCOAT

EnviroMax™ Formaldehyde Free Pre-Cat White/Opaque

This acid cure formaldehyde free amino alkyd pre-catalyzed lacquer has the high durability and performance of a post-cat, and is both low odor and HAPs free - creating a safer work environment and improving indoor air quality once a project is installed. It is GREENGUARD certified and was specifically formulated to eliminate formaldehyde off gassing concerns from acid cure coatings on commercial and residential projects.

MagnaMax® White/Opaque Base * VOC

This pre-catalyzed lacquer offers the convenience and user-friendly features of pre-catalyzed lacquer, while providing improved durability and performance. This high solids, yellowing resistant, HAPs-free, ultra-low formaldehyde, pre-catalyzed lacquer meets the AWI System 2 pre-catalyzed lacquer and System 5 conversion varnish ratings for chemical and moisture resistance.

High Performance Pre-Catalyzed Lacquer - White/Opaque Base

This non-yellowing, HAPS-free pre-catalyzed lacquer with ultra-low formaldehyde is a medium solids, fast-drying formulation, and has exceptional resistance to water, solvents and household chemicals.

*** VOC = Also available in VOC compliant formulas.**

M.L. Campbell offers best-in-class waterborne finishes, with unique systems that improve indoor air quality with low VOC formulations. M.L. Campbell's waterborne technologies offer trouble-free application and a beautiful final appearance that mirrors their solvent-based counterparts.

SEALERS

Aguante® PLUS Sealer

This waterborne GREENGUARD certified coating was designed to offer exceptional adhesion and sandability and seal woods to create a porous free surface for top coating. Its fast drying, trouble-free properties enhance the richness and clarity of the overall finishing system.

HP Water Borne Production Lacquer Sealer

This single component production clear sealer was designed for interior wood millwork, furniture and display fixtures. It is based on European acrylic copolymer resin technology that offers a fast dry, low VOC, HAPs free formula designed for air dry and forced dry production application.

CLEAR TOPCOATS

Aguante® PLUS Clear

This pre-catalyzed, low VOC, waterborne clear coating is GREENGUARD certified and formulated with advanced resin technology that mirrors its solvent-based counterpart – pre-catalyzed clear lacquer. It dries quickly and produces no hazardous off-gassing during cure and is available in a full range of sheens.

Aguatana™

This extremely durable 2K waterborne conversion urethane formula is easy to use and provides a low VOC, selfsealing, easy sanding, HAPs free, two-component clear finish designed for interior wood surfaces. It was formulated using specific European water borne urethane resin, along with a very unique stir in water borne isocyanate cross-linking catalyst for outstanding chemical and moisture resistance.

HP Water Borne Production Lacquer

This single component production clear was designed for interior wood millwork, furniture and display fixtures. Based on European acrylic copolymer resin technology, High-Performance Water Borne Production Lacquer Clear offers a fast dry, low VOC, HAPs free formula designed for air dry and forced dry production application.

MagnaMax® H2O - NEW

This pre-catalyzed waterborne polyurethane was developed to offer solvent-like performance in a shop-friendly, water-based formula. It's the ideal choice for a shop that wants the appearance and durability of a solvent-borne finish along with the safety and clean-up benefits of a waterborne formula.

PRIMERS/UNDERCOATERS

Aguante® PLUS Stain Blocking White Primer

This waterborne GREENGUARD certified coating was designed to help prevent tannin and stain migration. Special polymers lock water-soluble tannins to help prevent bleed through while creating a smooth surface for water-borne pigmented topcoats. It is ideal for use on unfinished MDF, softwoods such as pine and cedar and hard woods such as oak, poplar, birch and maple.

HP Water Borne Production Lacquer Primer

This fast drying and easy sanding pigmented primer was formulated to be used as the first coat under High-Performance Waterborne Production Lacquer Pigmented, but it can also provide an ideal smooth base coat for other water borne pigmented topcoats.

Water Borne Millwork Primer

This very fast drying interior/exterior water borne pre-primed millwork primer has very good adhesion and holdout and sands easily between coats. It was designed to be a production transport primer, which is only intended to seal the substrate from incidental exposure to the elements prior to applying the final finish coating system.

PIGMENTED TOPCOATS

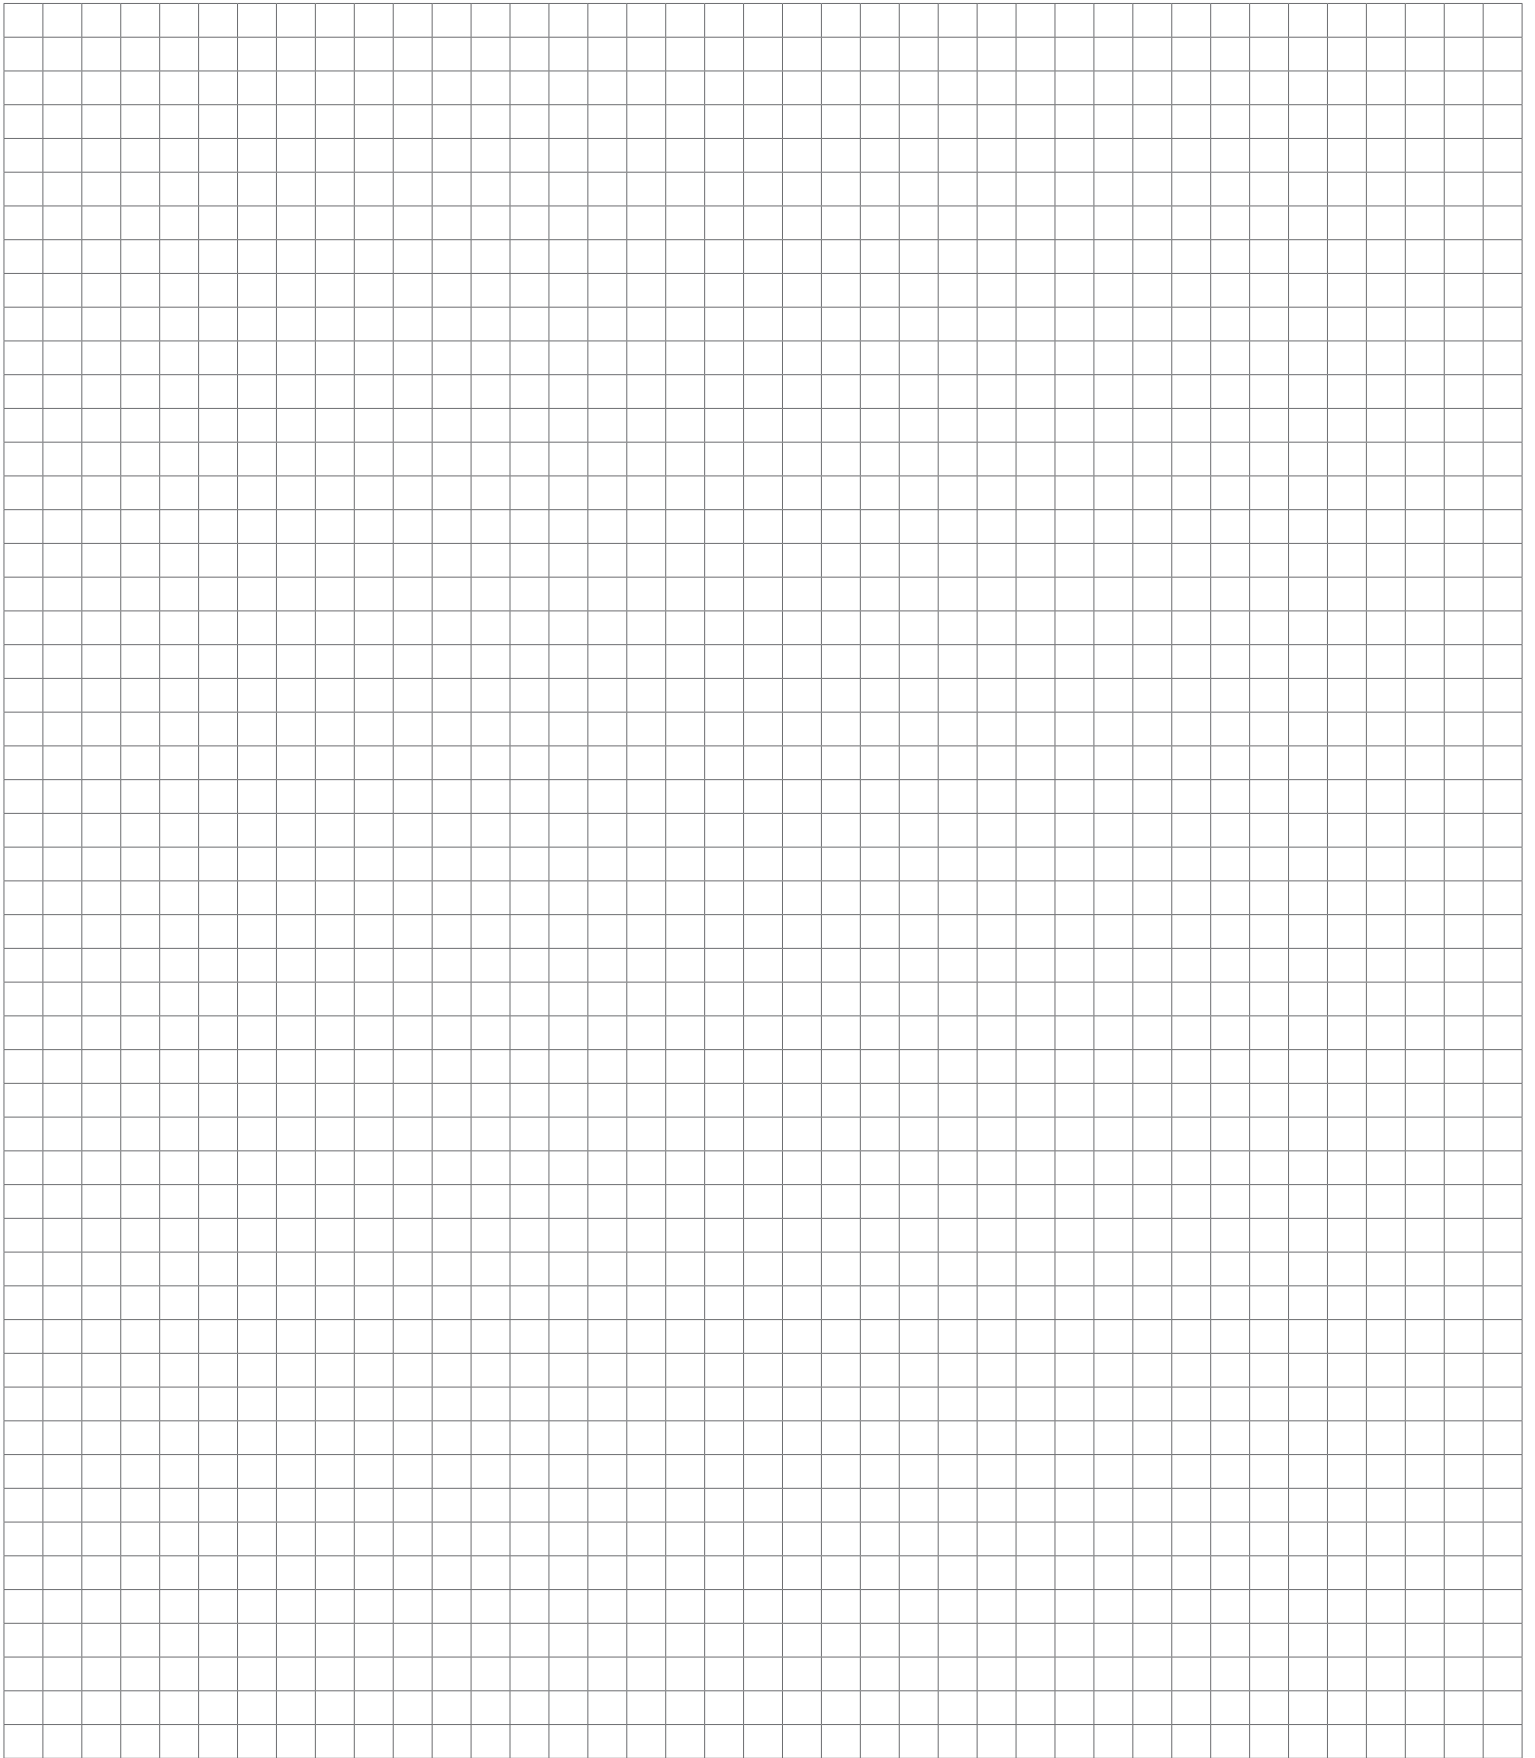

Aguante® PLUS White/Opaque Base

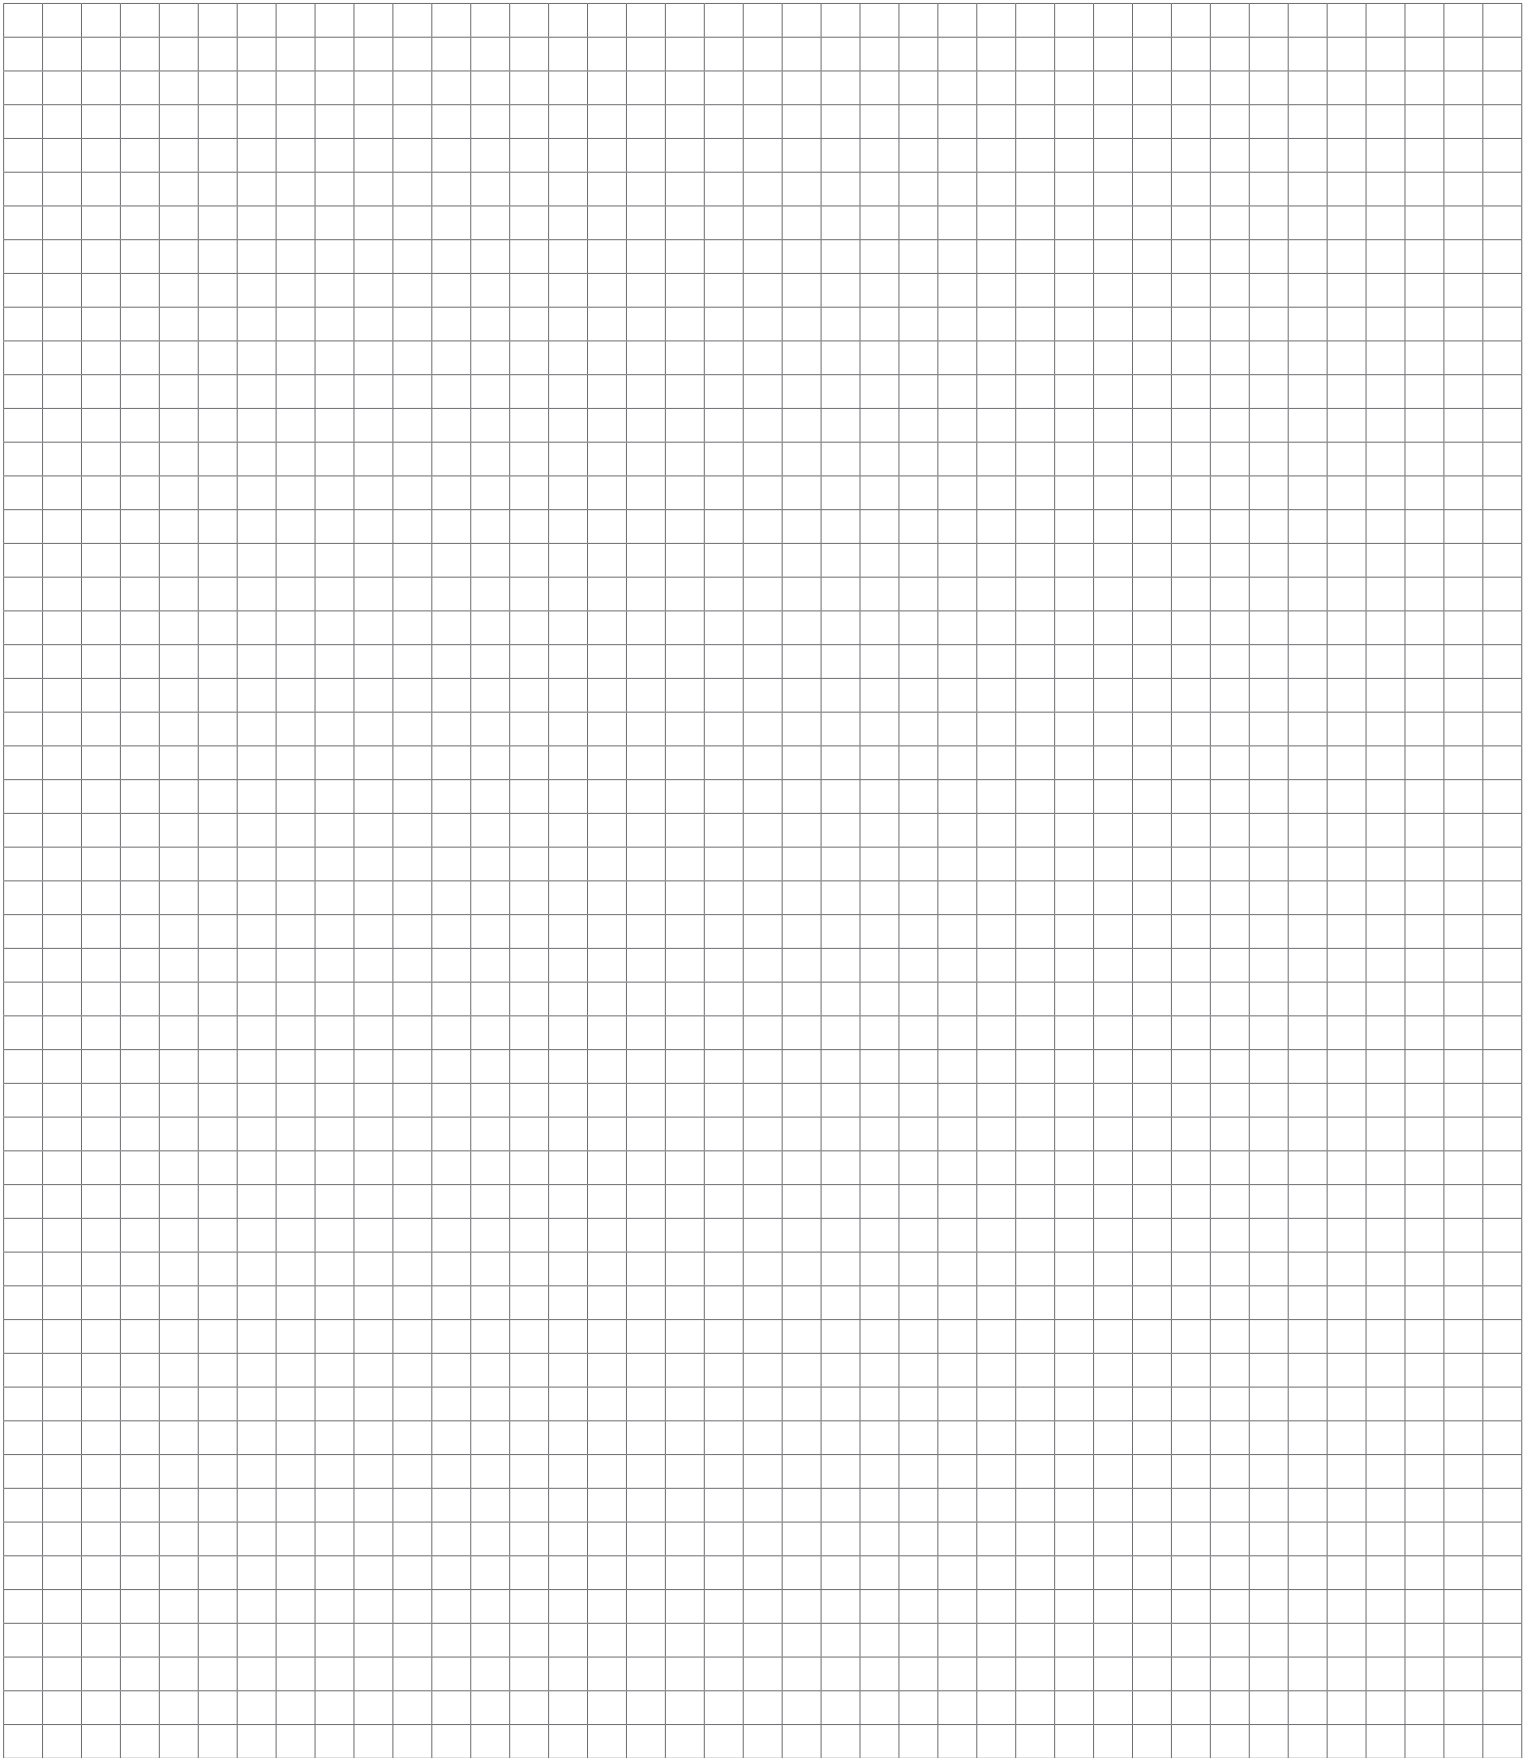

This pre-catalyzed low VOC, water borne coating is GREENGUARD certified and formulated based on advanced resin technology that mirrors its solvent-based counterpart – pre-catalyzed lacquer. It dries quickly and produces no hazardous off-gassing during cure. It is available in a full range of sheens and can be tinted to 1,000+ colors.

HP Water Borne Production Lacquer White/Opaque Base

This pigmented waterborne topcoat was designed for interior wood millwork, furniture and display fixtures. It is based on breakthrough European acrylic copolymer resin technology that offers a fast dry, low VOC, HAPs free formula which provides trouble-free production application as well as a very smooth appearance and touch.
